1 Introduction

Welcome...

2 Research Questions(s) & Hypothesis

This project will aim to address some research questions and preeminent assumptions about traffic patterns, as discussed below.

2.1 Questions

Our research questions are...

2.2 Hypotheses

Some hypotheses we have are...

3 Relevant Literature

According to (Alexander 2023)...

4 Dataset & Methods

4.1 Dataset

4.1.1 Data Source

Dataset obtained from (City of Toronto, n.d.).

4.1.2 Measurement

Our data was measured by...

4.1.3 Data Structure

This is how our dataset is structured

4.1.4 Key Variables

Key variables from our dataset are...

4.2 Methods

Methods we plan to apply in our analysis are...

5 Exploratory Data Analysis

5.1 Overview

Data analysis was done using statistical programming language (R Core Team 2023) and the Tidyverse library (Wickham et al. 2019).

5.2 Key Aspect 1

One key dataset aspect that relates to our variables of interest is...

5.3 Key Aspect 2

Another key dataset aspect that relates to our variables of interest is...

5.4 Key Aspect 3

Another key dataset aspect that relates to our variables of interest is...

6 Next Steps

Report Presentation Adjustments
